

INDEX.

A.

Abortion, criminal, 306.
Abscess—strumous, 95, 125; pathology of secondary or metastatic, 111; lumbar, 218; stercoraceous, 272; dissecting of leg, 366.
Absinthe, 165.
Academy of Medicine, French, incident in, 164.
Accommodation, mechanism of, 320.
Acid—citric, in phosphatic gravel, 138; phenic, as an antiseptic, 389.
Acupressure, 123.
AGASSIZ expedition, 62, 401; farewell to, 374.
Air-passages, foreign body in, 103, 173.
Albuminuria, is there in epilepsy, 83, 104.
Alcohol, 370—as food, 93, 158; and raw meat in treatment of phthisis, 129; an antidote for strychnia, 339.
American Medical Association, transactions of, 178.
Ammonium, bromide of, in pertussis, 100.
Amputation—of hip-joint, 188, 281; and resection of shoulder-joint, 381; of fore-arm by TRALE's method, 407; of both arms, osteomyelitis, death, autopsy, 410.
Anesthesia, 14—prolongation of by subcutaneous injections of morphia, 57; by nitrous oxide gas, 100, 365—6, 385, 395.
Anasarca, 333; with ascites, 300.
Anatomical drawings of DA VINCI, 404.
Anchylosis—of finger, 73; partial of shoulder-joint, 125; of knee-joint, 140, 234.
Aneurism—danger of injection into left popliteal artery; cure of by extirpation of sac and ligation, 223; of thoracic aorta, 286; of abdominal aorta, 392; of left ventricle, extensive calcareous deposits, 411.
Animals, inhuman treatment of, 12.
Animal food, does it conduce to leanness? 309.
Angina pectoris, 169.
Ano, fistula in, 332.
Anthracite coal as a remedy, 286.
Antiseptic, phenic acid as an, 389.
Antrum of Highmore, cystic tumor of, 125.
Aorta—fibrinous deposits in, 174; aneurism of thoracic, 286; aneurism of abdominal, 392.
Aphasia, discussion on, 197.
Appalling record, 403.
Arm—and shoulder, extirpation of, 229; paralysis of from carious tooth, 287.
Army—medical department of, report of, 213, 405; records of, 262; statistics of sickness and mortality in, 65; examining board, 149; expenses of medical department of, 398.
Army and Navy news, 15, 47, 84, 101, 133, 293, 309, 326, 342, 405.
Arsenic, 256—smoking with tobacco, 83; new test for, 293.
Arsenite of strychnia, 236.
Artery—ligature of iliac, 206; ligation of common iliac, 368.
Ascites, with anasarca, 300.
Asphyxia—syncope—poisoning, 143.
Asthma, cardiac, 75.
Association, British Medical, 161, 175.
Atmosphere, effect of flowers on, 14.
Atrophia and morphia, 97.
Axillary gland enlarged, 237.

B.

Bean, Calabar, in treatment of eye diseases, 231.
Bee-bread as a diuretic, 256.
Belladonna and opium, antagonism of, 286.
Benzole gas, 187, 244.
Bequests, liberal, for scientific objects, 182, 257.

BIOGRAPHICAL SKETCHES:

A. H. Stevens, M. D., 5.
Willard Parker, M. D., 17.
Joseph Thoburn, M. D., 19.
Gurdon Buck, M. D., 34.
Julius S. Thebaud, M. D., 72.
Stephen Smith, M. D., 295.
Alexander E. Hosack, M. D., 359.
Births, plural, 34.
"Black death," 47.
Bladder, paralysis of, 141, 283.
Blood—diseased, action of on blood vessels, 274; transfusion of, 286; corpuscles and iodine, 229.
Blow-pipe, a new, 380.
Boils, treatment of, 344.
Bone—reproduction of, 31; sources of phosphate in, 157; hypertrophy of in tumor of head, 250; caries of metatarsal, from glass, 281.
BOSSANGE, Martin, 419.
Brevet worthily bestowed, 397.
Bribing medical men, 402.
Bright's disease, 7.
Bronchitis—with peritonitis after debauch, 51; acute, 376.

Bronchocele, operation, 413.
Bubo, syphilitic, 219.
Burrin, statue to, 402.
Burns, tale as an application to, 197.
Burns, synovial, hypertrophy of, 77.

C.

Calabar bean, mydriasis and paralysis of accommodation cured by, 231.
Calculus, urinary, in a child, 368.
Calomel—hypodermic injection of in syphilis, 191; poisoning by impure, 373.
Cancer, 41—lemon juice as an anodyne lotion in, 287; of pylorus, 395; of testicle, 407; of hand, 410.
Cancerous deposit, general, 409.
Carbuncle, 139, 282.
Cardiac asthma, 75.
Caries—of rib, 236; and necrosis of foot, 218; from and with rheumatism, 249; of kneejoint, 274, of metatarsal bones, 281.
Cartilage formed in knee-joint, 251.
Case of mistaken identity, 372.
Cataract, 10—soft, extraction of by suction, 286; modified linear, extraction of, 319, 320; new operation for extraction of, 373; traumatic, 378.
Cephalitis, abuse of, in continued fever, 395.
Cerebro-spinal meningitis, 22, 53.
Chancre, soft, 282, 380.
Chelioplastic operation, 240.
Child, new-born, laceration of, 97.
Child's doctor, 292.
Chinese, medicine among, 357.
Chloroform—internally in congestion, 297, 398; discoverer of, 338; anesthesia from internal use of, 354; means of averting a death from, 415.
Cholera, 62, 192, 303, 352, 380, 400; in Egypt, 84, 143; cure for, 117, 211; in New York, 176, 341; remedies for, 195; action in regard to, in Philadelphia, 212; in Italy, France, Malta, etc., 223, 244; in Constantinople, 233, 355, 403; progress of, 289, 326, 337, 386; ice bag in, 323; and New York health commissioners, 324; precautionary measures against, 336; a congress on, proposed, 310; hospital for, at Sandy Hook, 333; Dr. Chapman's theory and treatment of, 354; report on, in Phila. Co. Med. Society, 366; history of, on the Atalanta, 373; cause of, 382; in England, 389; and insects, 402; singular cure for, 403.
Olfendinatti Lancet and Observer, 398.
Circulation the, and its discovery, 181; a new, 181.
Classes, medical, in Philadelphia, 419.
Club-thumb, case of, 77; -foot, 273.
Coal anthracite, as a remedy, 286.
Congestion, chloroform internally as a remedy for, 287, 398.
Conjunctivitis, nitrate of silver and sulphate of copper in, 307.
Consanguinity, marriages of, 83, 149.
Constipation, 409.
Convulsions uremic, 66.
Convulsive diseases, veratrum viride in, 49.
Cookery, science of, 371.
Copper, sulphate of, and nitrate of silver in conjunctivitis, 307.
Cornea, nutrition of, 320.
Correspondence, New York, 324.
Coryza, treatment of, 241.
Cosmos, Dental, 147.
Court-plaster, substitute for, 149.
Croup, treatment of, by inhalation of lime-water, 171.
Cure, extraordinary, 14.
Cystorrhoea, 108.

D.

Da Vinci, anatomical drawings of, 404.
Deafness, nervous, 333.
"Death Black," 47.
Dead, identification of, 42.
Debauch, peritonitis and bronchitis after, 51.
Deformity, influence of mental impressions as a cause, 55.
Deglutition, 60.
"De gustibus," etc., 63.
Dental Association, American, 115.
"Cosmos, 147.
Dentistry by steam, 150.
Diabetes—inipidus, 7; cured by seton, 221; in a monkey, 292.
Diamonds, chemical production of, 116.
Diarrhoea—treatment of, 208; oil of Erigeron in, 395.
Digitalis and ergot, action of combined, 369.
Diphtheria, 40; treatment with ice, 112, 335.

INDEX.

A.

Carbuncle, 139, 282.
Cardiac asthma, 75.
Caries—of rib, 236; and necrosis of foot, 218; from and with rheumatism, 249; of knee-joint, 274, of metatarsal bones, 281.
Cartilage formed in knee-joint, 251.
Case of mistaken identity, 372.
Cataract, 10—soft, extraction of by suction, 286; modified linear, extraction of, 319, 320; new operation for extraction of, 373; traumatic, 378.
Cathartes, abuse of, in continued fever, 395.
Cattle—contagious disease of, 196; plague, 356, 401.
Cells—of testicle, and iritis, mercurials in, 59.
Cement, new ribbon, 84.
Centenary address of University of Pennsylvania, 276; meeting of Medical Society of New Jersey, 384.
Cerebro-spinal meningitis, 22, 53.
Chancre, soft, 282, 380.
Chelioplastic operation, 240.
Child, new-born, laceration of, 97.
Child's doctor, 292.
Chinese, medicine among, 357.
Chloroform—internally in congestion, 297, 398; discoverer of, 338; anesthesia from internal use of, 354; means of averting a death from, 415.
Cholera, 62, 192, 303, 352, 380, 400; in Egypt, 84, 143; cure for, 117, 211; in New York, 176, 341; remedies for, 195; action in regard to in Philadelphia, 212; in Italy, France, Malta, etc., 223, 244; in Constantinople, 233, 355, 403; progress of, 289, 326, 337, 386; ice bag in, 323; and New York health commissioners, 324; precautionary measures against, 336; a congress on, proposed, 310; hospital for, at Sandy Hook, 333; Dr. Chapman's theory and treatment of, 354; report on, in Phila. Co. Med. Society, 366; history of, on the Atalanta, 373; cause of, 382; in England, 389; and insects, 402; singular cure for, 403.
Olfennati Lancet and Observer, 398.

Circulation the, and its discovery, 181; a new, 181.
Classes, medical, in Philadelphia, 419.
Club-thumb, case of, 77; -foot, 273.
Coal anthracite, as a remedy, 286.
Congestion, chloroform internally as a remedy for, 287, 398.
Conjunctivitis, nitrate of silver and sulphate of copper in, 307.
Consanguinity, marriages of, 83, 149.
Constipation, 409.
Convulsions uremic, 66.
Opulsive diseases, veratrum viride in, 49.
Cookery, science of, 371.
Copper, sulphate of, and nitrate of silver in conjunctivitis, 307.
Cornea, nutrition of, 320.
Correspondence, New York, 324.
Coryza, treatment of, 241.
Cosmos, Dental, 147.
Court-plaster, substitute for, 149.
Croup, treatment of, by inhalation of lime-water, 171.
Cure, extraordinary, 14.
Cystorrhoea, 108.

D.

Da Vinci, anatomical drawings of, 404.
Deafness, nervous, 333.
"Death Black," 47.
Dead, identification of, 42.
Debauch, peritonitis and bronchitis after, 51.
Deformity, influence of mental impressions as a cause, 55.
Deglutition, 60.
"De gustibus," etc., 63.
Dental Association, American, 115.
"Cosmos," 147.
Dentistry by steam, 150.
Diabetes—inipidus, 7; cured by seton, 221; in a monkey, 292.
Diamonds, chemical production of, 116.
Diarrhoea—treatment of, 208; oil of Erigeron in, 395.
Digitalis and ergot, action of combined, 369.
Diphtheria, 40; treatment with ice, 112, 335.

Discovery, wonderful, 132.
Disease—value of thermometer in diagnosis and prognosis of, 191; change of type in, 241; epidemic and contagious, 404.
Dispensatory. U. S., 44.
Diuretic, bee-bread as a, 256.
Dropsy, 331.
Drunkennes—English cure for, 14; cure for, in Holland, 100.
Duchenne's disease, 52.
Dysentery—caused by impure exhalations, 153; oil of Erigeron in, 399.

E.

Ear—diseases of the internal, 70, 88, 106, 121, 135; removal of foreign bodies from, 111.
Eclampsia, is there albuminuria in, 86.

EDITORIALS:

Education, physical, 243.
A new volume—the safety of travellers—amendment of constitution of American Medical Association, 11; inhuman treatment of animals intended for food, 12.
Medical Society of Ohio—a regiment of soldiers struck by lightning—endowment of lectureships in University of Pennsylvania, 27.
Formation of medical societies, 43.
Report of the Provost marshal General, 61; sanitary measures, 62.
The late Dr. S. D. WILLARD, 79.
Epidemics, 99.
Pedestrianism—the late Dr. McGUIGAN—advertising quack medicines, 113.
Primary cause of mortality in our great cities, 131.
Professional etiquette of the Pritchard poisoning case—house of Lea & Blanchard, 146.
British Medical Association, 175; rank and pay of hospital stewards, 176.
Cholera, 192; a will case, 194.
Medical schools—public hygiene, 209; Pritchard poisoning case, 210; Philadelphia county Medical Society, 211.
Quarantine and commerce, 224.
Change of type in disease, 241; physical education, 243.
Free schools of medicine—worthlessness of mortality statistics, 270.
The social evil and the military authorities, 275; University of Pennsylvania, centennial, 276.
Hospitals for the insane and their curative influence, 288; progress of the cholera, 289.
Criminal abortion, 306; Philadelphia county Medical Society, 306.
New literary arrangements—our large cities and epidemics, 322.
Cholera—precautionary measures, 336; progress of cholera, 337.
Where shall I locate?—change of type, 351.
Alcohol, 370; the science of cookery, 371.
Announcement of fourteenth volume—Centenary meeting of the Medical Society of New Jersey, 384; nitrous oxide as an anesthetic, 385.
American Pharmaceutical Association, 396.
Cholera—contagion—quarantine, 416.
Electricity—228; new views, 129; influence of on color of insects, 196; ocean as a source of, 293.
Elbow-joint, compound fracture of, 407.
Electric battery, 117.
Endoscopy, 173.
England, pauper population of, 421.
Enteremphaxis, 120.
Epidemics—99; our large cities and, 322; Russian, 13; hospitals, 276.
Epilepsy—157; from fracture of skull, 13; is there albuminuria in, 86.
Epithelioma, 333; of lip, 77, 94, 123.
Ethnologist, caution to, 46.
Etiquette, professional, and Pritchard poisoning case, 146.
Ergot and digitalis, action of, combined, 369.
Erigeron, oil of, in hemorrhage, etc., 335.
Erysipelas—treatment of with sulphate of soda, 112; of face, 141.
Extracts, fluid, preparation of, 359.
Eye—diseases of, 215, 267; foreign body in, 293; impaired vision from blows and ophthalmic symptoms, 320.

F.

Feet, gangrene of, from frost-bite, 273.
Femur—necrosis of, 76; gunshot wound of, 95; intra capsular, fracture of, 281; gunshot wound of, 308.
Fever—puerperal, 9; yellow fever plot, 31; ventilation in, 32; stimulants in treatment of, 57; remittent, 69; a case of mixed combination of typhus and typhoid, 76; spotted, 127; typhoid in pig, 154; malarious, 155; typhus, 251, 282, 301, 332, 345; starvation, 300; congestive intermittent, 319; walking, 364; intermittent and remittent, dose of quinia to be given, 103; continued, abuse of cathartics, strychnia, 395.
Finger, ankylosis of, 78.
Fistula—vesico-abdominal, 217; with scirrhus of rectum, 273; urinary, 280; lachrymalis, 108; in ano, 332.

Flowers—effect of, on atmosphere, 14; preservation of, with natural colors, 180; to preserve, 181.
Fluid extracts, preparation of, 389.
Fly-bite, poisoned by, 31.
Food and the teeth, 183, 198.
Foot—caries and necrosis of, 218; club, 273.
Fossil, human remains, 357.
Fourteenth volume, announcement of, 384.
Fracture—gunshot, with application of sutures to bone, 189; immediate treatment of by fixed apparatus, 219; ununited of tibia, 250; of lower jaw, 273; intra capsular of femur, 281; gunshot of femur, 308; of larynx, 255; compound of tibia, 407; compound of elbow joint, 407; humerus, splint for, 97; of skull, 139; of cervical vertebrae, with wound of scalp, 167; of skull, 237, 327.
Fright, death from, 198.
Frost bite of feet, gangrene from, 273.
Furunculus, treatment of, 314.

G.

Ganglion of wrist, 95.
Gangrene—hospital, 73; of feet, from frost-bite, 273; traumatic extract of logwood in, 115.
Giant, the French, 404.
Giants, vital capacity of, 281.
Gland—enlarged axillary, 257; thyroid, 160.
Glands, inflamed, pure iodine as local application, 223.
Glass, for amblyopic patients, 321.
Glycerine, 10.
Gravel, phosphatic, citric acid in, 138.
GORECHT, Surg., serious accident to, 132.
Gonorrhoea, 281.
Gunshot injuries, tenacity of life in, 151, 205, 299.

H.

Hand—gunshot wound of, 110; and forearm, injury to, 350.
Hare lip, 95; and fissure of palate, 218.
Head, gunshot injuries of, 291, 331.
Health officer of Philadelphia, 41.
Heart—penetrating wound of, 85; paralysis of, 152; hypertrophy of, 412.
Hemorrhage—etc., oil of Erigeron in, 395; secondary, 50.
Hemorrhoids, 393.
Hernia—cerebri, successful treatment of, 63; umbilical, 128, 234.
Herpes zoster, sulphate of iron in, 330.
Hiccup, chronic, 234.
HIGHMORE, antrum of, tumor in, 334.
Hip-joint, amputation of, 188, 281.
Homeopathic medicines, 181.
Homeopathy in French Senate, 100.
Hospital—stewards, rank and pay of, 176, 177; ships, 62; gangrene, 73; Long Island College, 28; Emigrants' on WARD's Island, 28; to be closed, 81; HAMPTON general, 82; description of a rebel, 147; epidemic, 276; for insane, and their curative influence, 288; registration of attendance at, 176; ST. THOMAS' new, 195; WILL'S Ophthalmic, 225.
Housemaid's knee, 126.
Humerus—splint for fracture of, 97; gunshot wound of, 141; separation of, at epiphysis—shaft driven through deltoid muscle, 190; luxation of, 319.
Hurricane, terrible effects of, 46.
Hydrocephalus, 26; ophthalmoscope in diagnosis of, 173.
Hydrophobia, cure by vapor bath, 114.

HOSPITAL REPORTS:

Philadelphia Hospital:—

BRIGHT'S disease—diabetes insipidus, 7.
Cirrhosis, attended with ascites, 37; abdominal hysteria, 88.
Peritonitis and bronchitis after debauch, 51; DUCHENNE'S disease, 52; catarrhal lterus, 53.
Cardiac asthma, 76; case of mixed fever, 76.
Stereocaceous abscess, 272; gangrene of feet from frost-bite—club-foot—scirrhus of rectum with fistula—fracture of lower jaw—stricture of urethra, 273; enlarged tonsils—inflammation at knee joint and caries, 274.
Intra capsular fracture of femur—caries of metatarsal bones from glass—amputation at hip-joint—gonorrhoea, 281; ingrowing toe-nail—paralysis of the bladder—scald—carbuncle—soft chancre, 282.
Ascites, with anasarca of the lower extremities—starvation fever, 303; acute rheumatism—typhus fever, 301.
Chronic laryngitis, 316.
Dropsy—syphilitic laryngitis, 331; typhus fever, 332.
Pathological specimens—typhus fever, 345.
Acute bronchitis, 376; pathological specimens, 377.
Pleurisy—aneurism of abdominal aorta, 392.
Syphilitic pharyngitis and laryngitis, 408; constipation, 409.

Jefferson Medical College:—

Hypertrophy of tonsils—sebaceous tumor of the scalp, 54; Pott's disease of spine, 55.
Nevus—necrosis of femur, 76; hypertrophy of the synovial bursa over olecranon process—a case of club-thumb—convergent strabismus—epithelioma—polyp of nose, 77; sebaceous tumor—ankylosis of finger, 78.

- Scirrhus** of mammary gland, 93; **paronychia**—**talipes** varus—Pott's disease of spine—**epithelioma**, 94; fibrous tumor of arch of palate—**strumous abscess**—**hare-lip**—gunshot wound of femur—ganglion in wrist—**ptosis**, 95; **osoma**, 96
- Pterygium**—**cystorchæa**—foreign body in air passages, 408; primary **syphilis**—**talipes** equinus—fatty tumor, 109; gunshot wound of hand—gelatinoid polyps of the nose—**hypertrophy** of the tonsils, 110.
- Gunshot wound of leg—**strumous abscess**—**scirrhus** of mammary gland—**cystic tumor** of antrum of Highmore, 125; **phthisis**—**epithelioma**—housemaid's knee, 126.
- Foreign body in nose, 139; **staphyloma**—**tertiary syphilis**—**ankylosis** of knee-joint—**curvature** of spine—**partial ankylosis** of knee-joint, 140; **cystic tumor** of neck—**inverted toe nail**—**deformity** of toe—**tertiary syphilis**—**gunshot wound** of humerus—**erysipelas** of face, 141.
- Lupus exedens**—**onychitis** maligna—**popliteal aneurism**—**forced flexion**, 217; **abscess** in lumbar region—**caries** and **necrosis** of the foot—**syphilitic sore throat**—**hare-lip** and **fracture** of palate, 218; **syphilitic bubo**—**adhesions** from scald—**abdominal tumor**, 219.
- Anchylosis** of knee—**umbilical hernia**—**chronic hiccup**—**strumous epiphthalmia**, 231; **phosphor-necrosis**, 235; **scirrhus** of skin—**encysted tumor** of lip—**caries** of rib—**onanism**, 239; **hydrocele**—**fracture** of skull—**enlarged axillary gland**, 237.
- Nævus** of upper lip—**chelioplastic operation**—**keloid tumor**—**caries** from and with **rheumatism**, 249; **un-united fracture** of tibia—**tumor** on the side—**tumor** on the head—**hypertrophy** of bones—**spasm** of the sterno-cleido muscle, 250; **cartilage** formed in the knee-joint, 251.
- Pennsylvania Hospital:**
- Amputation of the thigh—**acupressure**, 123; **hydrocele**, 124. **Caruncle**—**compound fracture** of skull, 133. **Fracture** of vertebra, with wound of scalp—**hydrocele**—**morbid specimens**, 167; **fistula lachrymalis**, 168.
- Re-amputation** for **neuralgia**—**anæsthesia** by **nitrous-oxide gas**, 365; **dissecting abscess** of leg—**operation**—**nitrous-oxide gas**—**syphilitic sarcocele**—**sloughing** of scrotum—**removal** of gland—**nitrous-oxide**, 368.
- Cancer** of hand—**amputation** of forearm by **TRAIL'S** method—**compound fracture** of tibia involving head of bone—**amputation** through knee-joint—**compound fracture** of elbow-joint, 407.
- Wills' Ophthalmic Hospital:**
- Gonorrhœal ophthalmia**, 377; **extract** of cataract—**new operation**—**traumatic cataract**, 378.
- University of Maryland:**
- Orethitis**— **fistula** in ano, 332; **nervous deafness**—**epithelioma**—**syphilitic ulcers**—**anasarca**, 333.
- Chancre**—**injury** of hand and forearm, 360. **Necrosis**, 375.
- Nervous shock**—**necrosis** of jaw from decayed tooth—**hemorrhoids**, 393; **pathological specimens**—1, **ulceration** of intestines, 2, **cancer** of pylorus, 394.
- College of Physicians and Surgeons, New York:**
- Scrofulous synovitis** of wrist, 378; **hydrocele**, **hæmatocoele**, 379.
- I.**
- Ice-bag** in cholera, 323.
- Ice**, expansion of, 404.
- Icterus**, catarrhal, 53.
- Icthyosis**, congenital, two cases in one family, 399.
- Identity**, a case of mistaken, 372.
- Impotency**, virile and spermatorrhœa, 313.
- Inebriates**, reformed, 360.
- Infants**, syphilitic disease of bones in, 191.
- Injections**, subcutaneous, danger of, 369.
- Injuries** causing death of **PRESIDENT LINCOLN**, 96.
- Insane**—**hospitals** for, and their curative use, 258; **government hospital** for, 398.
- Insanity**—**climacteric** in woman, 158; **statistics** of, 163; **cured by castration**, 263.
- of**, 196.
- Insects**—and the cholera, 403; **influence** of electricity on color **intemperance**, progress of, 132.
- Intestines**, ulceration of, 394.
- Invalide**, appliances for, 261; **carriages** for, 363.
- Iodine**—a new source of, 10; and blood corpuscles, 229; **pure**, local use of in inflamed glands, 223.
- Iritis** and pelvic cellulitis, mercurials in, 59.
- Iron**—**effect** of, on plants, 182; **sulphate** of in shingles, 330.
- Iron-clads**, healthfulness of, 400.

J.

- Japan**, meteorology of, 293.
- Jaundice**, 348; **epidemic**, 399.
- Jaw**, fracture of lower, 373.
- Jawara**, Dr—a statue to, 100; a memorial to, 117.
- Joints**, difference of sensibility of, 24.

K.

- Keloid tumor**, 249.
- Kidney**, movable, 382.
- Knee-joint**—**ankylosis** of, 140, 234; **cartilage** formed on, 251; **inflammation** of, with caries, 274.

L.

- Labor**—**first stage** of occurring during sleep, 51; **relaxation** of pelvic articulation after, 66; **natural**, placenta in, 163.
- Laceration** of new-born child, 97.
- Lachrymal fistula**, 168.
- Laryngitis**—**chronic**, 316; **syphilitic**, 331; and **pharyngitis** syphilitic, 408.
- Laryngoscopy**, remarks on, 375.
- Larynx**—**fracture** of, 255; **removal** of tumor from through **pneum** **Adam**, 285; **tumors** removed from, 395.
- LEA & BLANCHARD**, house of, 146.
- Leanness**, does animal food conduce to, 399.
- Leg**—**gunshot wound** of, 125; **dissecting abscess** of and **operation**, 366.
- Lemon juice**, 14.
- Lemonade** powders, 14.
- Lena**, and capsule, simultaneous extraction, 320.
- Leprosy**, committee of College of Physicians, 229.
- Life**—**tenacity** of as seen in gun-shot injuries, 152, 205, 299; **statistics** of, in England, 101.
- Ligature** of iliac artery, 206.
- Lightning**—a regiment of soldiers struck by, 27; **deaths** from, 116.
- Lime water**, inhalation of in croup, 171.
- LINCOLN, PRESIDENT**, injuries causing death of, 96.
- Lint**, substitute for, 421.
- Lip**—**epithelioma** of, 77; **encysted tumor** of, 236; **upper**, **nævus** of, 249.
- Liquor**, ammonia acetatis, 36.
- Lithia salts**, therapeutic properties of, 170.
- Lithophagia**, 399.
- Liver** and spleen—**enlargement** of, and **nitric acid**, 222; **glycogenic** functions of, 229.
- Logwood**, in traumatic gangrene, 115.
- London**, drainage and sewerage of, 178.
- Lunge**—**gunshot wound** through, 233; **œdema** and **emphysema** of, with **hypertrophy** of heart, 412.
- Lupus exedens**, 217.
- Luxation**—of radius, partial, 171; of humerus, 319; **partial** of lower end of tibia forward, 368.
- Luxuries**, ancient table, 195.

M.

- Magnesium**—140; and **Hare's light** in surgery, 26; **light**, 400.
- Malposition** of abdominal viscera, 191.
- Malpractice**, action for alleged, 270.
- Malt** as food, 15.
- Man**, antiquity of, 114, 180.
- Mammae**, enlargement of and cancer, 41.
- Mammary gland**, **scirrhus** of, 93, 125.
- Marriages**, consanguineous, 83, 149.
- Meat**—**raw**, and alcohol in treatment of **phthisis**, 129; **curing** of, 44.
- Mechanism** of accommodation, 320.
- Medical College**, Berkshire, 341.
- Medical journals**, new, 419.
- Medical**—**men**, honors conferred on, 176; **schools**, 209; **Association**, British, 176; **candidates** for Parliament, 31; **prize question**, Boylston, 46; **Journal** in Canada, 132; **Journals**, new, 307; **Department** of Army, records of, 262; **prizes**, 325, 356; **Jurisprudence**, 244.
- Medicine**—**French Academy** of, incident in, 164; **free schools** of, 260; **specialties** in, 420.
- Medicines**, advertising of quack, 113.

MEDICAL SOCIETIES:—

- Amendments** of Constitution of American Med. Ass. 11; **Med. Society** of Ohio, 27, 29.
- of Vermont**, 39, 347.
- Female**, 43.
- Association** of Maine, 30; **formation** of 43; **new**, 45.
- of Vermont**, transactions of, 127.
- of Philadelphia County**, 147, 211, 251, 282, 302.
- of Suffolk County**, Mass., 380.

Discussions in Medical Societies.

Academy of Medicine, New York:—

- Pathology** of pneumonia, 317; **luxation** of humerus—**intermittent fever**, 319; **treatment** of pneumonia, 346.

Pathological Society, New York:—

- Tumor** growing from sheath of sciatic nerve—**soft sarcomatous tumor** of antrum of Highmore, 334.
- Removal** of tumor from antrum of Highmore—**urinary calculus** in a child—**partial luxation** of lower end of tibia forward—**gunshot fracture** of femur—**necrosis** of tibia, 368.

General cancerous deposit, 409; amputation of both arms, osteomyelitis, death, autopsy—cancer of testicle, 410; aneurism of left ventricle, with extensive calcareous deposit—scurrhous of stomach, 411; oedema and emphysema of lungs, with hypertrophy of heart—microscopical examination of tumor, 412.

Philadelphia County:—

Typhus fever, 251, 282, 302; report on cholera, 366; cholera, 423.

Vermont:—

Veratrum viride, 39; diphtheria, 40; enlargement of mammary cancer, 41.
Jaundice, 348; sciatia, 349.
Meningitis—cerebro-spinal, 22; spinal, 22.
Menorrhagia, intra uterine injections in, 311.
Menstruation, painful, 41.
Mental impressions, as a cause of deformity, 55.
Mercurials, in pelvic cellulitis and iritis, 59.
Meteorites, speculation on, 197.
Metrical system, 292.
Mexico, medical schools in, 403.
Michigan, University of, 398.
Microscope, new, of astonishing power, 83.
" and Buddhism, 421.
Microscopical examinations of tumor, 412.
Military practice, cases in, 119.
Milk—fermenting in phthisis, 156; researches on, 405.
Modelling, clay and glycerine for, 421.
Monkey, diabetes in, 292.
Monster, antediluvian, 404.
Morphea—subcutaneous injections of, 56; prolongation of anaesthesia by, 57; and atropia, 97.
Mortality—in our great cities, primary causes, 131; of Providence, R. I., 147; in England, 227; in tenement-houses, 228; statistics, worthlessness of, in great cities, 260.
Muscle, sterno-cleido, spasms of, 160.
Museum, medical, of U. S. Army, visit to, 81.
Mushroom, poison of, 190.
Myriasis and paralysis of accommodation cured by calabar bean, 231.

N.

Nævus—76; upper lip, 249.
Natural selections, 164.
Naval Academy at Annapolis, 43.
Navy news, (see Army.)
" report of Bureau of Medicine and Surgery for 1865, 406.
Necrosis, 350—and caries of foot, 218; of femur, 76; phosphor, 225; of jaw-bone, from decayed tooth, 393.
Neck, cystic tumor of, 141.
Nerve—sciatic tumor growing from sheath of, 334; division of pneumogastric, in man, 360.
Nervous disease, rare, 25; shock, 393.
Neuralgia in stump, reamputation for, 365.
Nitric acid, influence of in reducing enlargement of liver and spleen, 222.
Nitrous oxide as an anæsthetic, 100, 365, 366, 385, 395.
Nose—polyp of, 77; gelatinoid polyp of, 110, foreign body in, 139.
Notes—taking, 65; on fever at Camp Big Springs, 364.

O.

Obesity, extraordinary, 402.

OBITUARIES:

Dr. Henry Southey—Dr. Felix Robertson—Dr. Jos. Hopkinson, 56.
Dr. McGuigan, 113, 118.
Dr. S. D. Willard, 133.
Prof. Remak, 230, 315.
Dr. Henry W. Ducachet—Dr. John Forest, 278.
Dr. George McCook, 293; Prof. J. L. Riddle, 292.
Dr. D. S. Conant—Dr. E. D. Bailey, 294.
Dr. Samuel Stuart Griffin, 368.
Dr. John Lindley—Dr. T. C. Madison—Dr. William Irvin, 390.
Dr. Henry Barth—Rev. Dr. H. W. Ducachet, 422.

Onanism, 236.

Onychia maligna, 217.

Ophthalmia, 332.

Ophthalmia—catarrhal, 56; serofulous, 77; intermittent, 153; strumous, 234; gonorrhoeal, 377; in the Belgian army, 233; strumous, with reflex contraction of orbic. palpebrarum, 394; gonorrhoeal and purulent, use of pressure in treatment of, 414.
Ophthalmological society at Heidelberg, third annual meeting of, 319.

Ophthalmoscope—simple, 53; in diagnosis of hydrocephalus, 178.
Opium—and belladonna, antagonism of, 286; American, 341.
Os uteri, incisions into, 59.

Ovariectomy, 167, 305.

Ox gall, therapeutical uses of, 26.

Ozema, 96.

Ozone, 287.

P.

Palate, hare-lip and fissure of, 218.
Paralysis—of bladder, 141, 282; of heart, 162; of arm, from carious tooth, 287.
Paris, increased salubrity of, 14.
Paronychia, 94.
Parsley leaves, resolvent properties of, 98.
Pathological specimens, 167, 345, 377, 394.
Pedestrianism, 113.
Pellagra, history and pathology of, 171.
Pelvic cellulitis and iritis, treated with mercurials, 59.
Pennsylvania, University of—centennial, 276; endowment of lectureships in, 27; appointment of lecturers, 338.
Peppine wine, 78.
Periostitis, 95.
Peritonitis, with bronchitis after debauch, 51.
Petroleum gas—poisonous effects of, 187, 244; action of on human system, 181.
Pharmaceutical Association, American, 321, 396.
Pharmacy, school of, in Ohio, 321.
Pharyngitis and laryngitis, syphilitic, 408.
Phenic acid as an antiseptic, 369.
Philadelphia, Health officer of, 44.
Phosphates in bone, source of, 157.
Phosphor-necrosis, 235.
Phthisis—120; sugar in, 32; raw meat and alcohol in, 129; fermenting milk in, 156; curative treatment of, 124.
Physician, a brave, 404.
Physicians, association of, 81; accidents to, 292.
Pig, typhoid fever in, 154.
Placenta—in natural labor, 169; and umbilical cord, structure of, 174.
Plague—Russian, 13, 118; Oriental, 47; in Asia, 81; Siberian, 144, 292.
Plants—effects of iron on, 182; useful, 46.
Pleurisy, 392.
Pleuro-pneumonia, 159.
Plot, yellow fever, 31.
Pneumogastric nerve in man, division of, 350.
Pneumonia—pathology of, 317; treatment of, 346.
Poison—a new, 160; rattlesnake, 360; organic; physiological tests for, 174.
Poisoning—by a fly-bite, 31; syncope, asphyxia, 143; by mushrooms, 190; the Fritchard case and professional etiquette, 211; can it occur and the poison disappear, 223; attempted by strychnia, 277; by rattlesnake bite, treated with bi-sulphite of soda, 279; by veratrum viride, 360; by impure calomel, 372; by vine-disease fungus, 415.
Pooley, short-sighted, 290.
Polydactylism, 354.
Polypus—nasal, 77; gelatinous, 110.
Potash—picronitrate of in trichinosis disease, 24; chlorate of in phagedenic ulcers, 173.
Potassium—bromide of in stricture, 335; iodide of in inflammatory rheumatism, 335.
Potts' disease of spine, 55, 67, 94.
Prayer and practice, 307.
Pregnancy—sickness of, 246; extra-uterine, 415.
Pressure, in gonorrhoeal and purulent ophthalmia, 414.
Pride, and result of, 293.
Farcinosis poisoning case, 146, 210, 211.
Prostitution—licensed in Nashville, 180; regulating, 402.
Provost Marshal General's report, 61.
Pterygium, 103.
Ptosis, 95.
Pupil, operation for removal of membraniform obstructions from, 321.
Purulent infusion and death from, 181.
Pyæmia, 221.
Pylorus, cancer of, 394.

Q.

Quack—medicines, advertising, 113; vegetable pills, 399; docters, how served in France, 404.
Quinine—Officers, 48; and commerce, 224.
Quaker place for flannel shirt, 405.
Quinia—dose to be given in intermittent and remittent fevers, 103; and iodide of potassium in inflammatory rheumatism, 335.

R.

Rachitisme, 222.
Radius, partial luxation of, 171.
Rain fall of September 1865, 256.
Rattlesnake—bite treated with bi-sulphite of soda, 279; poison, 363.
Re-amputation of stump for neuralgia, 365.
Reason why, 343.
Rectum—prolapse, effectual remedy for, 222; stricture of, operation and death, 247; scirrhus of, with fistula, 273.
Reptiles, venenous, bite of, 196.
Re-ection and amputation of shoulder joint, 381.
Resident Physicians, association of, 81.
Respiratory activity, diminution of, 245.

Rheumatism—causes from and with, 249; acute, 301; inflammatory, quinine and iodide of potassium in, 335.
 Rhus toxicodendron, 335.
 Rib caries of, 236.
 Russian plague, (see *Plague*.)

S.

Salts, strumatic, 330.
 Sanitary condition of Wilmington, N. C., 28; regulations, international, 169.
 Scald—adhesions from, 219; sulphate of zinc in, 232, 282.
 Scalp—sebaceous tumor of, 54; wound with fracture of cervical vertebra, 167.
 Sciatica, 349.
 Sciatic nerve, tumor growing from sheath, 334.
 Scilla-maritima, composition and properties of, 172.
 Scirrhus—of mammary gland, 93, 125; of rectum with fistula, 273; of skin, 236; of stomach, 411.
 Scientific gifts, valuable, 357, 359.
 Scrofulous ophthalmia, 77.
 Sense, muscular, 344.
 Seton, diabetes cured by, 291.
 Sex, production of, 144, 154.
 Sexes, proportion of born, 338.
 Shingles, sulphate of iron in, 330.
 Shock, nervous, 393.
 Shoulder joint, re section and amputation of, 381.
 Siberian plague, (see *Plague*.)
 Sickness and mortality in the U. S. army, 65.
 Silver, nitrate of and sulphate of copper in conjunctivitis, 207.
 Smony, medical, 276.
 Skin, pustular disease of, 24.
 Skull—compound fracture of, 139, 237; fracture of, trephining, cerebral abscess, etc., recovery, 327.
 Small-pox, statistics of, 261.
 Smoking—292; arsenic with tobacco, 83.
 Social evil and military authorities, 276.
 Soda—sulphite of in erysipelas, 112; bi-sulphite of in rattlesnake bite, 279.
 Spasms of sterno cleido muscle, 250.
 Specialties and specialists, 63.
 Spermatorrhoea, 313.
 Spinal meningitis, disease, three forms, 222.
 Spine—pathology and treatment of disease of, 67, 90; Pott's disease of, 55, 67, 94; curvature of, 140.
 Splint, for fracture of lower part of humerus, 97.
 Sponge, cleaning, 181.
 Staphylococci, 149.
 Starvation fever, 300.
 Statistics—Provost marshal General's office, 13, 61; of stammering, 45; medical, of Veteran Reserve Corps, 47; of syphilis, 60; of sickness and mortality in U. S. Army, 64; curious, 84; of life in England, 101; of insanity, 163; of small-pox, 261; of weight, 375.
 Stewards, hospital, rank and pay of, 176, 177.
 Stimulants in treatment of fever, 57.
 Stings, treatment of, 197.
 Stomach—scirrhus of, 411; ulceration of, at cardiac orifice, 391.
 Stone, operation for, 13, 64.
 Strabismus convergent, 77, 220.
 Strangulation, internal, of small intestines, 291.
 Strictures—chronic of potassium in, 335; of rectum, 247; of urethra, 273.
 Strychnia—lecture on, and medical use of, 1; attempted suicide with, 277; arsenite of, 236; alcohol as an antidote, 339; in continued fever, 395.
 Subcutaneous injections, danger of, 369.
 Sugar in phthisis, 32.
 Suicide, attempted with strychnia, 277.
 Sulphate of zinc in burns and scalds, 232.
 " of iron in shingles, 330.
 Sulphites in zymotic diseases, 231.
 Surgery—American, in Paris, 25; magnesium and Hare's light in, 26; versus medicine, 64.
 Surgery, BAUER's orthopaedic, 339.
 " French, 358.
 Surgeons, compliment to, 48, 132.
 Surgeon-general's department for 1864, 47; abstract of report for 1865, 405.
 Sutures, application of, in fractures, 189.
 Syncope—apophysis—poisoning, 143.
 Syphilis—statistics of, 60; transmission of, by vaccination, 58; contagiousness of, 97; primary, 109; tertiary, 140, 141; hypodermic injections of calomel in, 191; non-transmission of, by vaccination, 256.
 Syphilitic—disease of bones in infants, 191; sore-throat, 218; bubo, 219; laryngitis, 331; ulcers, 333; pharyngitis and laryngitis, 403; sarcocoe, 306.
 Syphilization, 142.

T.

Talc, application of, to burns and wounds, 197.
 Talipes-varus, 94; equinus, 109.
 Tea in a nut-shell, 31.
 Teeth—artificial, how made, 387; decayed necrosis of jaw bone from, 393.

Temperance, 115.
 Tempest in a tea-pot, 228.
 Tenement houses, mortality in, 228.
 Testes—strangulation of in the inguinal canal, 239.
 Testicle—removal of, 386; cancer of, 410.
 Tetanus, 23; from gun-shot wound of finger, 343.
 Thermometer, value of, in diagnosis and prognosis of disease, 190.
 Thigh, amputation of, acupressure, 123.
 Thorax, penetrating wound of, 50.
 Throat sore, syphilitic, 218.
 Tibia—un-united fracture of, 250; partial luxation of lower end, forward, 368; compound fracture of, involving knee-joint, 407.
 Tobacco, smoking arsenic with, 82.
 Toe-nail—inverted, 140; deformity of, 141; ingrowing, 242.
 Tongue, excision of, 173.
 Tonsil—hypertrophy of, 54, 110; enlarged, 274.
 Trafalgar, survivors of, 402.
 Traumatic gingivae, logwood in, 115.
 Traumatism, 159.
 Travelers, safety of, 12.
 Trichinae, 191.
 Tumor—sebaceous of scalp, 54, 78; fibrous of arch of palate; strumous, 103; cystic of antrum of Highmore, 125; cystic of neck, 141; fluctuating of the hip, caused by parasitic animals, 160; ovarian, 167; abdominal, 219; encysted of lip, 246; keloid, 249; on the side; on the head, 250; removal from larynx through pomum Adami, 283; growing from the sheath of the sciatic nerve, 334; soft sarcomatous of the antrum of Highmore, 334, 368; removed from larynx, 395; microscopical examination of, 412.
 Turpentine vapor baths, 144, 170.
 Type, change of, in disease, 351, 386.
 Types of man, sixty of, 45.

U.

Ulceration—of stomach at cardiac orifice, 391; of intestines, 394.
 Ulcers—110; phagedenic, chlorate of potash in, 173; syphilitic, 333; of extremities, treated on Dr. Holt's plan, 345.
 Umbilical cord and placenta, stricture of, 174.
 University of Pennsylvania—centennial, 276; lectureships in, 27, 338.
 Uræmic convulsions, 63.
 Urethra—stricture of, 273; subcutaneous laceration of, in actio-collections, 280.
 Urinary calculus in a child, 368.
 Uterine displacement, influence of on the sterile condition, 240.
 Uterus—incisions into mouth of, 59; mucus membrane of neck, 95; injections into in menorrhagia, 311; chronic inversion of, removal of organ, 415.

V.

Vaccination—syphilis, transmitted by, 58; failure in, 128; animal, 237; non-transmission of syphilis by, 256; protective power of, 353, 434.
 Vaccine, how to preserve, 245.
 Variola—and vaccinia, 59; relations to vaccine, 237.
 Vapor bath—for cure of hydrophobia, 114; turpentine, 144, 170.
 Veins, varicose, 395.
 Ventilation, 179.
 Vermifuge, 10.
 Vesico-abdominal fistula, 217.
 Vine disease fungus, poisoning by, 415.
 Viscera, abdominal, malposition of, 191.
 Vocalization, 164.

W.

War, ravages of, 227.
 Water, ebullition of, 181.
 Weeklies, literary, 162.
 Where shall I locate? 351.
 Who are toughest? 229.
 Will case, 194.
 Wine—peysine, 78; improvement of, 83; on side-board, 147; sophticati n of, 149.
 Women, climacteric insanity in, 158.
 Wounds—penetrating of heart, 85; gun-shot of wrist, 95; gun-shot of hand, 110; of leg, 125; of humerus, 141; gun-shot through lungs, 233; of head, 291; talc as an application in, 237; gun-shot of finger, tetanus from 343; gun-shot of head, 381.
 Wrist—ganglion of, 95; serophulus synovitis of, 378.

Y.

Yale College, medical department of, strictures on circular, 63.

Z.

Zinc, sulphate of, in burns and scalds, 232.
 Zoophytes, myriad, 193.
 Zymotic disease, use of sulphites in, 231.

ORIGINAL CONTRIBUTORS TO THIS VOLUME.

- Batwell, E.—**
Cases from an Army Surgeon's note-book, 50;
successful amputation at hip-joint, 188; pene-
trating wound of head, 201; "walking fever,"
364.
- Bates, J. W. P.—**
Clinical reports, 332, 370, 393.
- Bauer, Louis—**
Surgical contributions, 247, 270, 280, 318.
- Bullock, W. T.—**
Reports of Clinics, 54, 76, 93, 108, 125, 139.
- Bunting, Ross R.—**
Is there albuminuria in epilepsy? 87, 104.
- Butler, L. C.—**
Medical Society of Vermont, 39, 127.
- Byrnes, Thomas—**
Liquor ammoniac acetatis, 36.
- "Caduceus"—**
Rank and pay of hospital stewards, 178.
- Clark, Alonzo—**
Pathology of pneumonia, 317.
- Condie, D. F.—**
Typhus fever, 251.
- Cowan, Geo.—**
Remittent fever, 69; polydactylism, 354.
- Crook, O.—**
Intra-uterine injections in obstinate menorrhagia, 310.
- Cutter, Ephraim—**
Remarks on laryngoscopy, 376.
- Da Costa, J. M.—**
Bright's disease; diabetes insipidus, 7.
Cirrhosis, attended with ascites, 37; abdominal
hysteria, 38.
Peritonitis and bronchitis after debauch, 51;
Duchenne's disease, 52; catarrhal icterus, 53.
Cardiac asthma, 75; case of mixed fever, 76.
- Dutcher, A. P.—**
Lecture on strychnia, 1.
- Farnsworth, P. J.—**
Pritchard poisoning case, 211; case of gun-shot
wound through the lungs, 233; alcohol as an
antidote for strychnia, 339; ulceration of stom-
ach at cardiac orifice, 391; epidemic jaun-
dice, 399.
- Francis, S. W.—**
Biographical Sketches of
A. H. Stephens, M. D., 5.
Willard Parker, M. D., 17.
Gurdon Buck, M. D., 34.
Julius Stephen Thebaud, M. D., 72.
Stephen Smith, M. D., 295.
Alexander E. Hosack, M. D., 359.
- Freeman, J. N.—**
Anæsthesia from internal use of chloroform, 354.
- Ford, W. H.—**
Hospital reports, 7, 37, 51, 75.
- Geiger, A.—**
Use of veratrum viride in convulsive diseases, 49.
- Gross, S. D.—**
Hypertrophy of tonsils; sebaceous tumor of scalp,
54; Pott's disease of spine, 55.
Nævus; necrosis of femur, 76; hypertrophy of
bursa over olecranon process; case of club-
thumb; convergent strabismus; epithelioma
of lip; serofulous ophthalmia; polyp of the
nose, 77; sebaceous tumor; ankylosis of
finger, 78.
Scirrhus of mammary gland, 93.
Paronychia; talipes varus; Pott's disease of
spine; epithelioma, 94; fibrous tumor of arch
of palate; strumous abscess; periostitis; hare-
lip; gun-shot wound of femur; ganglion of
wrist; ptosis, 95; ozæna, 96.
Pterygium; cystorrhœa; foreign bodies in air-
passages, 108; primary syphilis; talipes equi-
nus; fatty tumor, 109; gelatinoid polyps of
nose; hypertrophy of tonsils, 110.
Gun-shot wound of leg; strumous abscess; par-
tial ankylosis of shoulder-joint; scirrhus of
mammary gland; cystic tumor of antrum of
Higmore, 125; phthisis; epithelioma; house-
maid's knee, 126.
Foreign body in nose, 139; staphylooma; tertiary
syphilis; ankylosis of knee-joint; curvature
of spine; partial ankylosis of knee-joint, 140;
inverted toe-nail; deformity of toe; cystic
tumor of neck; tertiary syphilis; gun-shot
wound of humerus; erysipelas of face, 141.
Lupus exedens; onychia maligna; popliteal
aneurism; forced flexion, 217; abscess in lum-
bar region; hare-lip and fissure of palate;
caries and necrosis of the foot; syphilitic sore-
throat, 218; syphilitic bubo; adhesions from
scalds; abdominal tumor, 219.
Ankylosis of knee; umbilical hernia; chronic
hiccups; strumous ophthalmia, 234; phosphor-
necrosis, 235; scirrhus of skin; encysted tu-
mor of lip; caries of rib; onanism, 236; hy-
drocele; fracture of skull; enlarged axillary
gland, 237.
Nævus of upper lip; cheiloplasty operation; ke-
loid tumor; caries from and with rheumatism,
249; un-united fracture of tibia; tumor of side;
tumor of head, hypertrophy of bones; spasm
of sterno-cleido muscle, 250; cartilage formed
on knee-joint, 250.
Stereocoraceous abscess, 272.
Gangrene of feet from frost-bite; club foot;
scirrhus of rectum, and fistula; fracture of
lower jaw; stricture of urethra, 273; enlarged
tonsils; inflammation of knee-joint and caries,
274.

- Intra-capsular fracture of femur; caries of metatarsal bones from glass; amputation at hip-joint; gonorrhœa, 281; ingrowing toe-nail; paralysis of the bladder; scald; carbuncle; soft chancre, 282.
